

RADIAS System Firmware Version 1.07

Availability: May, 2007

When the RADIAS-R received MIDI clock signals from the outside (Global "Clock" parameter is Auto, Ext-USB, or Ext-MIDI), Note On/Off messages from the RADIAS KB were occasionally not received. This has been fixed.

When the RADIAS-R received a MIDI Sequencer Start message from the outside (Global "Clock" parameter is Auto, Ext-USB, or Ext-MIDI, and Vocoder "Modulator" parameter is FrmntPly), occasional problems occurred. This has been fixed.

A few low-level software bugs have been fixed.

RADIAS System Firmware Version 1.04

Notes from RD-KB may have been occasionally late. This has been fixed.
